

HALLOWEEN 2020

The Town of Oxford Board of Selectmen has a Policy that states Trick-or-Treat hours are on Halloween from 6:00 p.m. – 8:00 p.m. The Board of Selectmen and Board of Health do not regulate Halloween beyond the Board of Selectmen Policy. Trick-or-Treating is at the discretion of each household. **Due to the COVID-19 Pandemic, the Board of Health recommends households interested in Halloween activities to review, adopt and practice the guidelines from both the Center for Disease Control (CDC) and the Department of Public Health (DPH) to maintain the health and safety of family members and others.**

On 9/21/2020, the Center for Disease Control (CDC) advised against “traditional” trick or treating this year due to COVID-19. The recommendation was derived from Halloween guidelines that were broken down by different levels of risk. Also attached with this notification are the Department of Health (DPH) guidelines for Halloween.

Center for Disease Control (CDC) Information

Many traditional Halloween activities can be high-risk for spreading viruses. There are several safer, alternative ways to participate in Halloween. If you may have COVID-19 or you may have been exposed to someone with COVID-19, you should not participate in in-person Halloween festivities and should not give out candy to trick-or-treaters.

Lower risk activities

These lower risk activities can be safe alternatives:

- Carving or decorating pumpkins with members of your household and displaying them
- Carving or decorating pumpkins outside, at a safe distance, with neighbors or friends
- Decorating your house, apartment, or living space
- Doing a Halloween scavenger hunt where children are given lists of Halloween-themed things to look for while they walk outdoors from house to house admiring Halloween decorations at a distance
- Having a virtual Halloween costume contest
- Having a Halloween movie night with people you live with
- Having a scavenger hunt-style trick-or-treat search with your household members in or around your home rather than going house to house

Moderate risk activities

- Participating in one-way trick-or-treating where individually wrapped goodie bags are lined up for families to grab and go while continuing to social distance (such as at the end of a driveway or at the edge of a yard)
 - If you are preparing goodie bags, [wash your hands](#) with soap and water for at least 20 second before and after preparing the bags.
- Having a small group, outdoor, open-air costume parade where people are distanced more than 6 feet apart
- Attending a costume party held outdoors where protective masks are used and people can remain more than 6 feet apart
 - A costume mask (such as for Halloween) is not a substitute for a cloth mask. A costume mask should not be used unless it is made of two or more layers of breathable fabric that covers the mouth and nose and doesn't leave gaps around the face.
 - Do not wear a costume mask over a protective cloth mask because it can be dangerous if the costume mask makes it hard to breathe. Instead, consider using a Halloween-themed cloth mask.
- Going to an open-air, one-way, walk-through haunted forest where appropriate mask use is enforced, and people can remain more than 6 feet apart
 - If screaming will likely occur, greater distancing is advised. The greater the distance, the lower the risk of spreading a respiratory virus.
- Visiting pumpkin patches or orchards where people use hand sanitizer before touching pumpkins or picking apples, wearing masks is encouraged or enforced, and people are able to maintain social distancing
- Having an outdoor Halloween movie night with local family friends with people spaced at least 6 feet apart
 - If screaming will likely occur, greater distancing is advised. The greater the distance, the lower the risk of spreading a respiratory virus.
 - Lower your risk by following CDC's recommendations on [hosting gatherings or cook-outs](#).

Higher risk activities

Avoid these higher risk activities to help prevent the spread of the virus that causes COVID-19:

- Participating in traditional trick-or-treating where treats are handed to children who go door to door
- Having trunk-or-treat where treats are handed out from trunks of cars lined up in large parking lots
- Attending crowded costume parties held indoors
- Going to an indoor haunted house where people may be crowded together and screaming

- Going on hayrides or tractor rides with people who are not in your household
- Using [alcohol or drugs](#), which can cloud judgement and increase risky behaviors
- Traveling to a [rural](#) fall festival that is not in your community if you live in an area with community spread of COVID-19

Department of Public Health (DPH) Information: Tips for a Safe and Healthy Halloween

As a reminder, the following COVID-19 prevention and mitigation standards apply to all activities in Massachusetts, including Halloween activities. Residents should adhere to each of the following:

- Wear a face mask or face covering. For more information on face masks and face coverings, please see the state's [Mask Up MA](#) webpage.
- Observe good hand hygiene, including hand washing and use of alcohol-based sanitizers with at least 60% alcohol. Carry hand sanitizer and use it often, especially after coming into contact with frequently touched surfaces and before eating candy.
- Refrain from touching your face.
- Stay home and refrain from Halloween activities, including handing out Halloween treats, if:
 - you feel unwell;
 - you have tested positive for COVID-19;
 - you have been exposed to someone with COVID-19; or
 - you have traveled to or from a state that is not classified as lower risk within the last 14 days. For more information on lower risk states, please see the state's COVID-19 [Travel Order](#) webpage.
- Maintain social distancing of at least 6 feet of physical distance from all other participants who are not members of the same household.

Residents and communities should follow the [Halloween activity guidance released by the Centers for Disease Control and Prevention](#) to understand alternative ways to participate in Halloween that may limit the risk of exposure to COVID-19. As a reminder, any Halloween activities are subject to the current [gathering size limits](#) as well as applicable [sector-specific workplace safety standards](#).
